

NBNA FUNDING APPLICATION

Coaching is a key mechanism to developing better players and stronger teams within the county. The NBNA committee want to develop the pool of coaches in the county to ensure that we have the highest standard of coaching where possible; funding is available to help achieve this goal.

If your application is successful, NBNA have agreed that they will pay 25% of the cost of a course. This will be payable on completion of the course with the exception of UKCC Level 3 which will be payable before the course starts.

Please note that:

- Additional grants may be available from our local County Sports Partnership (LEAP) and other funding agencies to help pay for the course and you should approach them directly.
- All those who receive funding will be required to carry out some coaching as requested by NBNA
- Funding will not be given retrospectively
